1. The Committee was informed of the background of revamping Swadesh Darshan Scheme launched in 2015 as Swadesh Darshan 2.0 by the Ministry of Tourism and the guidelines of the Scheme were already circulated to all the members.
2. It was emphasised that the SD 2.0 is not an incremental change but a generational shift to evolve Swadesh Darshan Scheme as a holistic mission to develop sustainable and responsible tourist destinations covering tourism and allied infrastructure, tourism services, human capital development, destination management and promotion backed by policy and institutional reforms. It is a destination centric and tourist centric scheme.
3. A presentation on the Destination Centric Approach under the Swadesh Darshan 2.0 was made by the NPMU covering the following key areas:

**(i). Defining Destination**

Under Swadesh Darshan 2.0, Destinations having an existing tourism ecosystem with accommodation facilities for overnight visitors, tourism infrastructure amenities & services, having connectivity

options for the travellers and availability of tourism service providers such as travel agents, guides and Taxi facilities would be considered. Thus, Destination would act as unit for Planning, Development and Analysis.

**(ii). Destination Management Organisations**

DMOs will play a crucial role in implementing the scheme. The prime functions of the body will be to ensure effective planning and development, coordination with the public and private agencies, deploying a grievance redressal mechanism, ensuring larger community engagement and participation in the developmental activities, management and materialising a Visitor Information System.

**(iii). Data Driven Destination Management**

a. Destination Profiling:

The key attributes would be mapped and put out in a digital platform such as website, mobile app, videos which is user friendly and helps in better visibility of the destination. This would include the destination's attractions, linked circuits and popular itineraries, transit and accommodation options.

Destination Digitalization will be undertaken for better facilitation and seamless experience for tourists in booking of rooms, guides, deals & tickets, curation of destination's cultural and historical content, live feed and streaming, destination information, creation of micro-website, mobile application and furthermore social media promotions.

b. Baseline KPI and quarterly measurement

In order to assess the level of tourism development in the destinations, baseline information & performance on the Key Performance Indicators both from the demand (End user-Tourists) & supply (Tourism Service Providers) sides of the sector would be monitored on a quarterly basis.

c. Destination Dashboard

For ease of monitoring of the Destination Profile, KPIs and other attributes of the development a Dashboard would be created

exclusively for the destination which would be integrated to the SD 2.0 scheme Master Information System (MIS) Dashboard.

**(iv). Destination Master Plan**

Master Plan will be laid out to foresee strategic vision and planned development of the destination. MoT will bring out model Master Plan and DPR templates to ensure consistency in the structure. Focus on the Master Plan would be to impart principles of Sustainability and Responsible Tourism with larger emphasis on Public Private Partnerships.

**(v). Destination Marketing**

Brand identity of the destination could be materialised by use of quick-win solutions such as a logo or tagline, Public Arts initiatives, Place-Making & Tactical Urbanism and promotion of local products through souvenir shops. Later efforts would be streamlined to popularise 'One major Product from the Destination' and have a dedicated branding strategy for the destination.

**(vi). Destination Based Skilling**

State/District Management Committee will undertake efforts in organising capacity building and skill development programmes as identified. Special focus in moulding guides with multilingual abilities & story telling capabilities. Also creating more opportunities in traditional folklore and revival of destination's intangible heritage would be targeted.

**(vii). Adopt the Destination:**

In order to impart a sense of ownership to the community various programs would be planned such as convergence with the 'Adopt a Heritage' and 'YUVA Tourism Clubs' initiatives of the Ministry. Further local Colleges and Universities would be encouraged to 'Adopt a Destination'. Celebrities and Diaspora rooted to the destination will also be leveraged for active branding and promotion.

**(viii). Private Investment in Tourism**

A plan for management of revenue-generating assets, which can have public-private partnership and non-revenue generating assets, which will give budgetary support will be worked out and

implemented. Master Plans would also identify potentials areas for Private investment and participation at the destination.

**(ix). Improving Framework Conditions:**

Destination Management Committee will review framework conditions at the destination particularly health, hygiene, safety, civic infrastructure, overall quality of maintenance of the destination. Synergy with ongoing schemes of Government of India would be established in collaboration with the Central Ministries and other agencies.
